

INTRODUCTION TO PROGRAM DRIVER ZAPPING

Thanks to the innovation of the Program Drivers to be inserted into the zapper, it is now possible to use the zapper as a pre-programmed frequency generator. But what is the difference between regular zapping and frequency zapping. Let's see what Dr. Clark personally reveals:

WHAT IS ZAPPING?

Dr. Clark describes it very well in her books. She says:

“Zapping is a way of killing bacteria and parasites electrically. I find it kills parasites and bacteria wherever the electricity reaches. But some locations that are not reachable are tooth crevices, the intestinal tract, gallstones, and the inside of tumours. The current is not uniform through the body. In fact, a large fraction may travel along the arteries, veins, lymph vessels, nerves and inflamed regions. Persons with an inflammation in the body can often “feel” the zapper at that location. In spite of these limitations, the benefits can often be felt with each use! In addition, the benefits accumulate with each use, whether felt or not. In fact, I have preliminary evidence that zapping can raise immunity by removing the abnormal coating of ferritin on the outside of white blood cells”

HOW LONG SHOULD A PERSON ZAP?

Well, Dr. Clark says that zapping is harmless. In “The Cure for all Advanced Cancers” book, it says: *“you are instructed to zap every day. A “zap” consists of seven minutes of electrical current, a rest of about 20 minutes, another seven minutes of current, another 20 minute rest, and a final seven minutes of current. The reason for doing three seven minute sessions is that bacteria typically emerge from parasites that are killed. After these bacteria are killed, viruses emerge. So it takes three sessions to kill them all. You can zap more than once a day or continually if you wish, but be sure to zap at least once a day. Do this until you are completely well.”*

In the “Synchrometer Science Laboratory Manual” she continues by saying:

“The timing of regular zapping was originally set at seven minutes followed by twenty minutes off, this sequence being done three times. The timing was based on the observation that bacteria or parasites that were suddenly killed released other pathogens that were still alive and could spread through the body. Three sessions were considered adequate at the time (1994). Since then, it has been seen that large parasites release smaller parasites. These release bacteria, which, in turn, release viruses. Viruses may even release prions. Altogether we see five “layers of animal invaders to be killed. Theoretically, we should use five, seven –minute zaps, but in practice three zaps were enough. For very sick persons, though the more they zapped, the better they became. It may even be possible to zap continually till you are well; that is, non-stop all day for a week or more. A positive electrical force that pulses up and down not only appears to kill tiny invaders, it also seems to energize your WBC to go on a n all-out attack on your enemies: yours parasites, your toxins, everything, in spite of their four blocks benzene, PCBs, metals, and asbestos. That is why I recommend eight hours of zapping daily until you are well.”

A FREQUENTLY ASKED QUESTION

Our intestines harbour many bacteria, the so called “good” and “bad” bacteria, is there not a risk of killing the “good” bacteria together with the “bad” bacteria when we zap?

Let Dr. Clark answer directly from the “Cure of all Diseases” book:

“First of all, when zapping the center of the bowel contents is often unaffected by electric current, and it is true that there is no way of distinguishing between “good” and “bad” bacteria. However

even good bacteria are bad if they come through the intestinal wall, so zapping targets mostly “bad”. bacteria. The good news is that perfect bowel habits often result in a few days. Evidently the good bacteria are benefited by killing the invasive ones.”

WHAT IS A FREQUENCY?

Every living animal and every cell type produces its own frequencies and responds to these frequencies as well. We may speak of frequencies but we really mean waves, waves of energy. All waves have a frequency associated with them. Also dead things have a frequency. Luckily the frequency of a parasite, of a bacterium or a virus do not overlap the frequencies of a human. In fact, they are far away.

THE MAIN DIFFERENCES BETWEEN REGULAR ZAPPING AND FREQUENCY ZAPPING

Regular zapping:

1. Is not frequency-dependent. Any positively offset frequency kills all bacteria, viruses and parasites simultaneously given sufficient voltage (5 to 10 volts), duration (seven minutes) and frequency (anything from 10 Hz to 500,000 Hz)
2. Zaps mainly through the liquids and channels of our body, blood and lymph system
3. Some internal regions are unreachable

Frequency zapping:

1. Is frequency-dependent.
2. is a targeted way of zapping.
3. Can enter the internal regions

WHAT ARE THE BENEFITS FROM ALTERNATING REGULAR ZAPPING AND FREQUENCY ZAPPING?

The benefits derive peculiarly from their differences.

It is important that our body river system is cleansed, mainly blood and lymph system. This reactivates our WBCs so that they can continue their work of phagocytizing. This to the benefit of our immune system.

Frequency zapping has the benefit of reaching internal regions in order to zap specific pathogens. Let’s make an example: if we use the program Driver “Enteric problems”, only the so called “bad bacteria” that has been programmed on this specific driver” will be zapped, without touching the so called “good bacteria”. This to the benefit of our intestinal flora and therefore once again to our immune system.

From these two small examples, we can see the benefits from alternating regular zapping and frequency zapping.

WHY IS A DRIVER CONCEPT NECESSARY?

Since Dr. Clark in her books mentions, which parasites, bacteria, viruses, fungi, etc, are connected to a specific health condition, through the driver concept, people can now take full advantage of a very thorough and complete type of zapping, i.e. alternating the regular zapping with the frequency zapping.

THE DRIVER CONCEPT

The driver concept consists of finding the correct pathogens for a specific health condition and matching them with the frequencies on Dr. Clark's list.

How was this done?

A thorough study of Dr. Clark's books was needed and a list was created with all parasites, bacteria, viruses, fungi, etc that would contribute to a specific health condition or sickness. The names of these pathogens were then matched with the frequencies on Dr. Clark's list. Initially a list of 35 program drivers were programmed. A further step was taken: all pathogens mentioned on Dr. Clark's frequency list were taken one by one and checked on the internet, to see if additional medical information was available for that specific pathogen, which was then included in the program driver list.

This driver concept has been a big success for people that have understood the benefits of this type of zapping. Many have responded with their comments and suggestions. Once again, thanks to our readers and interested ones, we have taken to heart their suggestions and have created further drivers to meet everyone's needs. Thanks to this, recently, another 25 drivers have been assembled.

HOW ARE THE DRIVERS TO BE USED?

In which sequence and how often are the drivers to be used?

Mainly it depends on the health condition of the person. The best thing to do is to alternate the drivers according to the severity of a certain health condition. Also here, we can use an example:

The Drivers for "Advanced Cancer", "Cancer", "Tumor" would be used together for a cancer patient, alternating for maximum benefit. In addition the new key "Oncovirus" has been created, based on the latest information in Dr. Clark's latest book, to give support to cancer patients or HIV patients. This driver is a very complete key and touches all aspects of all health conditions and therefore can be a big support, by alternating it with other drivers.

Another example:

If you are planning a vacation in a tropical country, don't forget two keys that need to be alternated: the "tropical diseases" and the "tropical dysentery" drivers.

WHICH DRIVERS ARE AVAILABLE?

Below is a list of available program drivers.

To note that if someone needs a key for only a specific pathogen, a specific key called smart key can be programmed containing that specific frequency.

1. Acne Z759
2. Advanced Cancer Z708
3. Allergies Z701
4. ALS (amyotrophic lateral sclerosis) Z754
5. Alzheimer's Z724
6. Arthritis Z725
7. Asthma Z702
8. Bronchitis Z750
9. Cancer Z715

10. Children's Disease Z753
11. Chronic Fatigue Z704
12. Common Bacteria Z721
13. Common Fungi Z726
14. Common Parasites Z722
15. Common Viruses Z723
16. Cystitis Z740
17. Cysts Z746
18. Depression Z727
19. Diabetes Z705
20. Digestive/Enteric problems Z756
21. Diverticulitis/colitis/Crohn Z728
22. Earache Z744
23. Endometriosis Z735
24. Epilepsy/Seizures Z706
25. Eyes Z736
26. Fibromyalgia Z707
27. Flu Z709
28. Headaches and Migraines Z714
29. Heart Z712
30. Helicobacter pylori Z729
31. Herpes Z711
32. High Blood Pressure Z703
33. HIV/AIDS Z713
34. Hormonal imbalances Z741
35. Infertility Z742
36. Irritable bowel Syndrome Z730
37. Kidneys Z718
38. Liver/Cholesterol Z716
39. Lyme Disease Z737
40. Meningitis Z751
41. Menopausal dysfunction Z748
42. Multiple sclerosis Z717
43. Onco Viruses Z758
44. Ovarian Cysts Z747
45. Pain Z738
46. Parkinson's Z731
47. Pneumonia Z752
48. Prostate Z719
49. STD (sexually transmissible diseases) Z755
50. Sinusitis Z732
51. Skin Problems Z710
52. Sore throat Z749
53. Stomach ulcers Z745
54. Super Wide Sweep: this chip sweeps the whole range the zapper can cover with Wide Spektrum Technology Z733
55. Teeth Z739
56. Tinnitus Z743

57. TD (tropical diseases) Z757

58. Tropical dysentery Z760

59. Tumors Z720

60. Warts Z734

CONCLUSION

We hope that with this little excerpt regarding the benefits and functionality of regular and frequency zapping to have given you a general overview of what zapping is all about. Maybe it has helped you to answer some of your questions or to remove some of your doubts. As you can note from the list above, many drivers are now available. This in order to facilitate the choice according to everyone's specific health condition.
